Profile

As a first-year student at the University of Ghana, I am a driven and ambitious individual with a passion for programming and software engineering. With a strong foundation in leadership, I held various positions in high school, including organizer of the ICT club and form leader of my class. I was also an active member of GUNSA. With a devotion to my faith and a commitment to academic excellence, I am dedicated to honing my skills as a problem solver and programmer. Although I am still in the early stages of my coding journey, I enjoy experimenting with new code and continuously learning. I am excited to grow and develop as a professional and make meaningful contributions to the tech industry

Key Skills

- **Communication**: Confident public speaking and presentation skills
- **Leadership**: Proven experience in leading teams and ensuring efficient organization, honed through my role as Organizer of the school ICT Club
- **Musical**: Skilled singer and drummer with experience in the school choir, performing in Kids Theatre
- **IT**: C++(Beginner), Python(Beginner), HTML(Beginner), CSS(Beginner)
